Butte County

Grantee: Town of Paradise

Amount Awarded: \$15,750.00

Grantee Contact: Ms. Jennifer Arbuckle

Grantee Contact Phone Number: 530-876-3345

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Events Amount: \$15,750.00

The Town of Paradise (Paradise) requests \$15,750 to hold a waste tire collection event to provide needed disposal to Paradise and surrounding communities. The one day event included the collection, removal, and transportation of waste tires. Paradise's population of approximately 26,000 (12% of the County total) represents the main business area located in the eastern foothills of Butte County. The surrounding area includes the unincorporated town of Magalia and outlying areas that are collectively referred to as the Upper Ridge and constitute an additional 18,000 residents (8.3% of the county total). Contingent upon grant funding, Paradise in partnership with Northern Recycling and Waste services (see attachment 1) proposes to hold a one day event within the town limits to accommodate the entire underserved area of the Upper Ridge. Paradise believes that due to the large distances to travel (as shown in attachment 2), residents in Paradise and the Upper Ridge are reluctant to utilize past waste tire amnesty event locations, due to large travel distances. By providing a `free` drop off event in our community, Paradise believes that 100% of the Upper Ridge will be served. This event will provide the public with a waste tire disposal outlet as well as educational information that gives people the information needed to promote environmentally safe behavior in regards to using and transporting waste tires. This event will be held at Northern Recycling and Waste Services Recycling Yard located at 920 American Way in Paradise. Event will take place on a Saturday October 24, 2009 (pending award notification), from 9 am to 4 pm. With an estimated cost of \$2.00 per passenger and pickup tires; \$8.00 per truck tire; and \$20 per tractor tire (see attachment 3).

Total Awarded for County: \$15,750.00

Calaveras County

Grantee: Calaveras County

Amount Awarded: \$28,816.00

Grantee Contact: Mr. Brian Moss

Grantee Contact Phone Number: 209-754-6399

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup Projects Amt: \$13,429.20
Amnesty Events Amt: \$15,386.96

Waste Tire Cleanup Project(s) Description:

Provide waste tire remediation for two known large sites from an old, very rural, overgrown tire pile dating back to the 1960s that spans over two separate parcels. 3407 Chestnut way APN 53-005-039 and 3583 Chestnut Way APN 53-005-040

Smaller tire piles are routinely found through out the grant year, and will be remediated as deemed necessary.

All Tire piles will be evaluated for enforcement or clean up prior to authorizing the contractor to remove the tires.

Waste Tire Amnesty Event Description:

Conduct two amnesty events per fiscal year on site of County owned transfer stations, as well as one private recycling center under a Calaveras County contract. Calaveras County Public Works, Solid Waste Division will staff trailers at three of the transfer stations while Environmental Health staff will man the Avery Transfer station trailers. A total of 6,820 tires are projected to be received over the course of the two events.

Total Awarded for County: \$28,816.00

El Dorado County

Grantee: El Dorado County

Amount Awarded: \$35,962.00

Grantee Contact: Mr. Jeff Rusert

Grantee Contact Phone Number: 530-621-6654

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Events Total: \$35,962.00

El Dorado County is proposing to collect 8500 waste tires at the County's two materials recovery facilities operated by franchised waste haulers, who are also registered waste tires haulers. Waste Tire Amnesty Days will be established on a once per month basis and a free tire recycling coupon program will be established where coupons will be issued to those that contact the Department, and coupons will be issued to those that request them at the tipping booths of each MRF. The coupons will allow residents to bring up to 9 waste tires to the MRF's on the designated days. Local newspaper advertising will also publicize the program.

Total Awarded for County:\$35,962.00

Fresno County

Grantee: City of Coalinga

Amount Awarded: \$14,113.00

Grantee Contact: Ms Mercedes Garcia

Grantee Contact Phone Number: 559-935-1533

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: The City of Coalinga proposes to hold two Amnesty Events, one in November 2009 and the other in May 2010. The Amnesty Event in May of 2010 will be in conjunction with City wide clean-up project. City of Coalinga will offer coupons for citizens to drop off tires to local waste disposal site at no charge to the citizen. Coupons will be available for pick up at City Hall. Citizens may request up to 19 coupons from the City before the Amnesty Event. Citizens will provide the staff member accepting the tires with the coupons to avoid paying the fee for disposal. The coupons will help the project coordinator keep track of the number of tires delivered to the Events.

Grantee: City of Fresno

Amount Awarded: \$124,900.00

Grantee Contact: Ms. Barbara Miller

Grantee Contact Phone Number: 559-621-8423

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup Projects Amount: \$124,160.00

Amnesty Projects Amount: \$ 13,815.00

Cleanup Project: The City of Fresno is located near the center of the State in the central San Joaquin Valley. Our population is approximately 500,000 and has one of the highest concentrated poverty rates in the nation. A substantial part of the residential areas are in older neighborhoods which were developed with alleys. Illegally dumped tires and other debris are continually dumped in these alleys, at street curbs, along canal banks, on vacant lots, near freeways, and on other public right-of-way areas. The City of Fresno employs two staff members who locate and remove these illegally dumped tires from throughout the city. The tires are transported by the staff using a stake side truck which was purchased through a previous Tire Clean-up Grant-only gas and maintenance fees are charged to the grant. The tires are taken to waste tire transfer facility where they are placed in a trailer provided by Golden By-Products, a licensed tire recycling company. The City of Fresno will continue to address the illegal dumping of tires through the Tire Enforcement Grant and provide convenient and legal disposal of waste tires to constituents through the Waste Tire Amnesty Day Events. The Tire Clean-up grant allows the City of Fresno to remove these waste tires to prevent hazards to the public and the environment.

Amnesty: The City of Fresno has held waste tire amnesty day events since. The City of Fresno, Code Enforcement Division, will hold five Amnesty Day Events at various locations in the spring and fall. The events will be staffed with five individuals-three responsible for loading the tires into the trailers and two staff to direct traffic, conduct surveys, hand out brochures, and answer questions. Events will be advertised through the local newspaper, public information announcements through television and radio, City web site notifications, and flyers inserted in division mailings. In a new approach the City of Fresno will be utilizing a 'coupon' approach to allow residents to dispose of tires. Cost per tire is expected to be \$3.07.

Grantee: City of Kerman

Amount Awarded: \$7,822.00

Grantee Contact: Domingo Zapata

Grantee Contact Phone Number: 559-842-2302

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Events: 8,310

The City of Kerman will hold two Amnesty events throughout the year. The city staff will work and coordinate the events. An ad will be placed in the newspaper notifying the community about the event. The city will arrange to hold the event in the City of Kerman Public Works Yard. The city will produce educational material telling the community about the event and also educating them on the importance of recycling and the proper care and maintenance of tires. The material will, of course, make mention that the CIWMB funded this project. On the day of the amnesty event, the community will be able to bring in their tires to this location. The City of Kerman Planning and Development staff will work at the event at the cost of the city. The city will have the hauler take the tires that were collected throughout the day at a cost of \$105 per ton. It is estimated that the cost per ton would average approximately \$2.50 per tire

Grantee: Fresno County

Amount Awarded: \$163,255.00

Grantee Contact: Mr. John R. Thompson

Grantee Contact Phone Number: 559-600-4259

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup Projects Amount: \$200,000.00

Amnesty Events Amount: \$30,000.00

Cleanup: The County of Fresno has ongoing waste tire cleanup provided through the County's Department of Public Works and Planning - Road Maintenance and Operations Division. Illegally dumped tires are removed from County roads and right-of-ways in the rural and unincorporated areas throughout Fresno County. During fiscal year 2007-08, between 144-173 tons of waste tires (tonnage calculation is based on 90 tires per ton for an estimated total 13,000-15,600 tires) were collected from County roads and right-of-ways and disposed for recycling. County staff pick up waste tires and deliver them to storage areas at County landfills, road yards and other appropriate disposal sites. Waste tires are removed from storage sites by state-permitted tire recycler and hauling company Golden By-Products and taken to their recycling facility in Ballico where the tires are recycled into reuse products. In addition, County of Fresno proposes to use grant funds to target waste tire cleanup activities in the vicinity of the County-operated landfills where there is a heavy concentration of illegally dumped tires. Staff from the Department's Resources Division-Solid Waste Section will dedicate two weeks during Fiscal Year 2009-10 to tire cleanup in the rural and unincorporated areas near the landfills. Tires will be removed from the landfill storage site by Golden By-Products and taken to their facility for recycling into reuse products.

Amnesty: During Fiscal Year 2009-10, the County of Fresno plans to hold five (5) amnesty day events at different locations in the rural and unincorporated areas of Fresno County. Inmate labor from the County jail, under the supervision of Fresno County Sheriff's Department staff, will be used to load waste tires into trailer provided by Golden By-Products, a state-permitted tire recycler and hauling company. Golden By-Products will transport the loaded trailers to their recycling facility in Ballico where the tires will be recycled into reuse products. Each participant at the event will receive educational information on tire care. Amnesty days will be advertised in the target service area through direct mailing, the Internet and at community meetings.

County of Fresno is requesting \$30,000 in grant funding to offset the cost of the amnesty day project. It is anticipated that 13,500 tires (a combination of passenger and tractor tires) will be collected and hauled away in 22 trailers during the project period at an estimated cost of \$2.22 per tire. A cost estimate of \$1350 per trailer for waste tire hauling services was provided by state registered waste tire recycler and hauler company Golden By-Products (quote is attached). However, County of Fresno does have a contract with Golden By-Products to provide waste tire trailer/hauling services for a variable negotiated rate between \$1300 and \$1400 per trailer depending upon location of amnesty event.

Total Awarded for County: \$310,090.00

Humboldt County

Grantee: Humboldt Waste Management Authority

Amount Awarded: \$65,326.00

Grantee Contact: Brent Whitener
Grantee Contact Phone Number: 707-268-8680
CalRecycle Grant manager: Diane Nordstrom-Lamkin
Project Summary: Amnesty Events: 66,725

HWMA will host two tire amnesty collection event days, one in the Eureka area, the other in the unincorporated area of Humboldt County. The Authority will also continue with the waste tire coupon program serving all areas of the county that is based on the current model (the TCA-3 grant cycle). The Waste Tire Amnesty Days held in Eureka and the unincorporated part of the county are expected to generate about 8,000 waste tires. The ongoing coupon redemption event at the Authority Transfer Station in Eureka will last about six months and generate about 7,000 waste tires. This estimate of 15,000 PTE waste tires collected and placed into the waste stream equates to a disposal cost of \$4.45 per tire, well below the CIWMB allowable maximum.

Total Awarded for County:\$65,326.00

Imperial County

Grantee: Imperial Valley Resource Management Agency
Amount Awarded: \$236,950.00
Grantee Contact: Mr. Bob Douthitt
Grantee Contact Phone Number: 760-337-4589
CalRecycle Grant manager: Diane Nordstrom-Lamkin
Project Summary: Cleanup Projects Amount: \$200,000.00
Amnesty Events Amount: \$36,950.75

Participating Jurisdictions: City of Brawley, City of Calexico, City of Calipatria, City of El Centro, City of Holtville, City of Imperial, City of Westmorland, County of Imperial-Unincorporated.

Cleanup Project: See Attached Exhibit for details

Amnesty Event(s): See attached for details. There will be approximately 28 events which will last anywhere from 1 to 9 days each. Each city will announce the Amnesty Events in advance. Two employees will attend each event to collect and separate the tires. This entails sorting, braiding and stacking tires as required by the hauler. The registered hauler will deliver the tires to the recycler.
Estimated cost per tire: \$3.114

Total Awarded for County:\$236,950.00

Lake County

Grantee: Lake County
Amount Awarded: \$25,150.00
Grantee Contact: Ms. Caroline Chavez
Grantee Contact Phone Number: 707-263-1980
CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup Projects Amount: \$2,950.00

Amnesty Events Amount: \$22,200.00

Cleanup Project:

Alpine Park, owned and operated by the County of Lake, is comprised of more than two acres with approximately 400 ft of shoreline on Clear Lake. The address is 5985 E. State Highway 20 in the town of Lucerne. The APN is 034-051-15. There are residences adjacent to the park and businesses across the highway. The population of Lucerne is approximately 3,200. Alpine Park is located about 300 feet east of a deteriorated pier. In the 1950s, tires were stacked on the posts serving the dual purpose of providing bumpers for boats and spawning for catfish. Tires were also stacked on logs along the shoreline to serve as mini-breakers. About 200 of the tires have broken free and from the rotten pier posts and drifted to the Alpine Park Shoreline. The Public Services Department proposes to hire a contractor to clean up the submerged tires (\$1,550) and the pay Waste Recovery West (TPID 1003974) to load and haul them to a permitted facility (\$1,400) for a total estimated cost of \$14.75 each.

Amnesty Project:

Remote rural areas around lake County present too many convenient opportunities for illegal dumping. There are also folks who still haven't gotten rid of an old tire or two that have been in the shed since 1960. Waste Tire Amnesty funds will be used to sponsor free drop-off events at the County's two recycling centers. The applicant's in-kind contributions will be development and dissemination of public education materials and advertising that encourages residents to properly dispose of waste tires. The County's two franchise haulers, who operate the recycling centers, will contribute their staff resources as their in-kind contribution. Estimated cost per tire based on 2007/08 invoices, \$2.22

Total Awarded for County:\$25,150.00

Lassen County

Grantee: Lassen Regional Solid Waste Management Authority

Amount Awarded: \$25,065.00

Grantee Contact: Mrs.Paula Wesch

Grantee Contact Phone Number: 530-252-1273

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Event: \$25,065.13

Total Awarded for County:\$25,065.00

Los Angeles County

Grantee: City of Long Beach

Amount Awarded: \$56,021.00

Grantee Contact: Ms. Angie Tam

Grantee Contact Phone Number: 562-570-4695

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup Projects Amount: \$47,704.00

Amnesty Events Amount: \$8,317.00

Cleanup: The City of Long Beach proposes to continue the cleanup efforts around the Los Angeles River area north of the Long Beach Harbor basin. This area remains to be a high priority for the City due to the level of illegal dumping that occurs. The first area is one square mile east of the Los Angeles River between Anaheim and 7th street. The second area is one-half square mile west of the Los Angeles River between Anaheim and 9th Street (see attached map for both areas). For purposes of this proposal, these areas will be called the east project area and the west project area.

The west project area is industrial, yet located within one-half mile south of a residential area that includes Cabrillo high School. The Los Angeles River runs directly east, Dominguez Channel is about one-half mile to the west, and the waters of the Port of Long Beach are directly south.

The east project area is residential and includes Drake Park, as well as Thomas Edison and International Elementary Schools. The Los Angeles River runs directly west, with the Long Beach Harbor about one mile south.

In both areas, regular cleanups are necessary to keep dumped items off the streets. Most illegal dumping of tires occurs in alleys and other City right-of-ways, however, occasional dumping does happen on private property. Local businesses and neighborhood associations continue to coordinate cleanup efforts in the impacted areas, but still need assistance as the responsibility has outgrown their resources. Grant funds would ensure that tires are regularly collected, and that the east and west project areas remain clean and safe for residents and businesses. All tires collected by City crews will be taken to a facility that recycles tires into crumb rubber that is used in asphalt paving surfaces and synthetic athletic surfaces. `No dumping` signs will be posted in the areas most impacted by illegal dumping. There is not one site with 500 tires.

Amnesty: To supplement the City's free oversized collection program, residents will have the opportunity, through this grant, to properly dispose of tires at two annual waste tire amnesty events. These events will be widely publicized through the city's website, newspaper ads, and flyers. Promotional material and information will also be available at city facilities such as libraries and recreational venues. At each of the two amnesty events, the city will provide two-forty-yard-roll-off bins and adequate staffing to assist residents with their tire disposal. The bins will be hauled to Crumb Rubber Manufacturing (CRM) for recycling at a cost of \$65 per ton. Approximately 500 tires, weighing roughly five tons, will fit in each bin, for a total cost of \$325 per bin. The City of Long Beach will supply City staff, in LNG powered vehicles, to haul the tires to CRM at a total cost of \$2,708.86 for staff time for both events. Each amnesty event will require 3 bins to be hauled to CRM (26.4 miles per round trip) at a fuel cost of \$2.13 per mile. The total fuel cost to make six round trips to CRM, for both events, equals \$337.39. A recycling specialist will organize the event and coordinate the advertising and educational materials at a total cost of \$5,450. Freeth/Moroz, a local graphic design firm will design the flyer and website at an estimated cost of \$250, with an estimated cost of \$500 to print the promotional materials. Ads in local newspapers and magazines for both events will cost \$4,700. This cost breaks down to \$4.59 per tire to collect 3,000 tires at both events.

Grantee: City of Los Angeles

Amount Awarded: \$125,291.00

Grantee Contact: Mr. Ron Milo

Grantee Contact Phone Number: 213-485-3568

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup: \$200,000
Amnesty Event: \$30,000

The City of Los Angeles has an on-going waste tire cleanup provided through the City's Department of Public Works (DPW) managed by the Solid Resources Support Services Division (SRSSD) and the Solid Resources Collection Division (SRCD) of the Bureau of Sanitation (BOS). SRCD removes illegally dumped tires within the City's right-of-ways. Tires collected are delivered to the BOS six district yards. The district yards provide environmentally sound storage areas for the collection of illegally disposed tires. The Bureau's six district yards are; (see attached)

The City of Los Angeles collected 750 tons of used tires during 7/1/07 thru 6/30/08 through which, BOS estimates 50% represent the tires being abandoned or illegally dumped. The calculation is based on 25lbs. per tire or a total of 30,000 tires collected from illegally dumped areas. Waste tires are then removed from the district yards by Crumb Rubber Manufactures. a city contractor who handles all of the tires of the Department of Public Works. CRM is a state permitted tire recycler and hauling company. The tires are then taken to their facility to be recycled into crumb rubber for use in rubberized asphalt projects, artificial turf, ground cover under playground equipments, and/or as a surface material for running tracks and athletic fields . CRM has a 5 year contract with City of Los Angeles, Department of Public Works from October 1, 2004 to September 30, 2009 with a cost of \$39.90 per ton plus \$150.00 per haul. The City of Los Angeles through its Bureau of Sanitation is requesting \$200,000 to enhance the BOS Waste Tire Clean-up project.

The City's Department of Public Works, Bureau of Sanitation (BOS) through its Solid Resources Collection Division (SRCD) has on-going waste tire collection and recycling programs conducted year round at the Bureau's existing district yards. The district yards provide for an environmentally sound opportunity for all residents of the City to dispose of used tires, and promote the tire drop-off sites. Los Angeles City residents may drop-off up to four automobile tires at any local district yard each year. To further enhance the program, SRCD is planning to hold six amnesty events during the calendar year 2009-2010 at the Bureau's existing yards. SRCD yard staff collects used tires at the district yards to be hauled by CRM to their facility to use in the production of recycled products. It is estimated that 3,600 used tires will be collected from all these six events. This waste tire collection program is advertised through direct mailing to City residents, the City website, Neighborhood Council meetings, local newspapers, flyers, and the Solid Waste Integrated Resources Plan (SWIRP) otherwise known as the Zero Waste program. The City of Los Angeles through its Bureau of Sanitation is requesting \$30,000 to offset the cost of this used tire collection program.

Grantee: City of Pomona

Amount Awarded: \$4,000.00

Grantee Contact: Ms Antonia Castro

Grantee Contact Phone Number: 909-620-3628

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Events Total: \$4,000.00

The City of Pomona proposes to conduct 12 waste tire cleanup events during the 2009-10 fiscal year in partnership with local tire recyclers. On the first Saturday of each month residents would be able to dispose of their passenger tires at a certified local recycling establishment for no cost. The recycler would then invoice the City for tires collected at a rate of \$2.50 per tire. The goal would be to collect 1200 tires. City funds will be used for various means of advertising and notifying the residents of the collection events. These efforts will serve to help minimize the illegal dumping of tires in the public's right of way and alleyways throughout the city. All waste tires collected will be diverted from the landfill to a facility for recycling.

Approval of the application will allow continuance of a program began during the 2007-08 fiscal year. This program has become more successful as the months have gone by, as important word-of-mouth advertising for the program has increased.

Grantee: Los Angeles County

Amount Awarded: \$145,778.00

Grantee Contact: Wilson Fong

Grantee Contact Phone Number: 626-458-3581

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup Projects - \$70,000

Amnesty Events - \$90,000

Total Awarded for County:\$331,090.00

Madera County

Grantee: City of Madera

Amount Awarded: \$143,783.00

Grantee Contact: Mr. Bob Wilson

Grantee Contact Phone Number: 559-661-5188

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup Projects Amt: \$79,876

Amnesty Events Amt: \$76,568

Cleanup Project Description:

Scattered site pickup within county and city limits is an ongoing issue throughout the year. All sites within city limits (Chowchilla and Madera) and unincorporated areas are in close proximity to populated areas. One hundred percent of these sites are within 1,000 feet of one or more of the following: Residential Homes, School, Commercial, Industrial, Recreation Areas, Waterways, or Electrical Transmission Lines. Tires can be found in alleys, curbside, vacant lots, and waterways. It is estimated that 7,920; 1,320; and 2,000 tires will be cleaned-up during the grant cycle under scattered site pickup in City of Madera, City of Chowchilla and the County of Madera respectively. Purchase of a winch is requested to aide in tire pickup. REMEDIATION: Employee periodically travel the streets and alleys picking up illegally dumped tires.

END USE: The tires will be loaded into trailers supplied and removed by Golden By Products, Inc., to be recycled - Waste Tire Hauler # 1003314-01, Major Waste Facility Permit #24-TI-0656, TPID #1003314

REMEDIATION: On sites large enough to warrant a dedicated van for tire removal a van will be on site. The tires will be loaded by Staff. All other sites will utilize City or County staff to transport tires to the City or County scattered pickup site.

END USE: The tires will be loaded into trailers supplied and removed by Golden By Products, Inc., to be recycled - Waste Tire Hauler # 1003314-01, Major Waste Facility Permit #24-TI-0656, TPID #1003314.

None of the sites above have had previous enforcement action

Amnesty Events Description:

The City of Madera, City of Chowchilla, and the County of Madera will hold 5,1,and 6 amnesty events respectively in FY 2009-10 for a total of twelve events. As reservation only events, participants must call and register in advance to participate. A card/coupon is then mailed to the participant that must be submitted at the event for access to the Amnesty Event. As in the past volunteer labor will mainly be used at events to move tires and check-in participants. One employee will operate a skip loader to deal with large tires. One to two other Employees are on site to coordinate the event.

All Amnesty Events are date specific utilizing three different sires, no more often than one per month. At time of registration participants will be screened to verify that no tire generators are allowed (PRC 42954(7)). Any individual hauling 10 to 20 waste tires will receive written authorization by the LEA prior to the Amnesty event date. Violations will be reported to CIWMB within 30 days on the Unregistered Hauler & Comprehensive Trip Log Substitution Form (CIWMB204). All advertising will clearly state that the amnesty event is limited to 20 tires, with the appropriate written authorization from the LEA.

Estimated cost per tire \$2.16

Total Awarded for County:\$143,783.00

Mendocino County

Grantee: Mendocino Solid Waste Management Authority

Amount Awarded: \$19,204.00

Grantee Contact: Mr. Michael Sweeney

Grantee Contact Phone Number: 707-468-9710

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Even Amount: \$19,404.00

The Mendocino Solid Waste Management Authority proposes to repeat the successful program of tire amnesty collection that has been funded for many years by the CIWMB.

Our successful system for the tire amnesty is to provide free collection for a two week period at the transfer stations in Ukiah, Willits, Gualala and Caspar. Event planning, publicity and tire loading is provided by the Authority's personnel. Tire disposal/recycling is provided by Waste Recovery West which has identified a cement kiln in Redding, California as the destination and end use. The price quote for 2009 is attached.

Based on our past experience, we anticipate collecting approximately 8,400 tires. This program is very popular with the public and we have excellent cooperation from the transfer station operators.

Total Awarded for County:\$19,204.00

Merced County

Grantee: Merced County

Amount Awarded: \$30,000.00

Grantee Contact: Mary Kay Cruz

Grantee Contact Phone Number: 209-385-7388

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Event Amount: \$30,000.00

Merced County Department of Public Works will administer a regional countywide tire amnesty program. Grant funds will be used solely for waste tire collection and processing costs. Up to 36 tire amnesty day events will be conducted concurrently during regularly scheduled `community clean up days` in each of Merced County`s seven jurisdictions. Requesting grant amount of \$30,000 with an estimated total of 21,600 tires to be collected at a cost of \$1.39 per tire for fiscal year 2008/2009. The Merced County Association of Governments will conduct the regional public education component of this project proposal. The public education will consist of printing and distributing a tire care brochure in two languages. The brochure outlines proper tire care and maintenance, provides on-line resources, and provides information for local tire amnesty events. The public education campaign also includes web site and press releases. The purpose of this project is to reduce incidents of illegal dumping, increase the amount of tires captured during tire amnesty events, and to educate the public on proper tire maintenance and disposal.

Total Awarded for County:\$30,000.00

Monterey County

Grantee: Salinas Valley Solid Waste Authority

Amount Awarded: \$77,680.00

Grantee Contact: Linda English

Grantee Contact Phone Number: 831-775-3004

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Events Amount: \$90,000.00

The Salinas Valley Solid Waste Authority has previously held four very successful tire amnesty events as the result of previous Waste Tire Amnesty Grants. It is our intent to conduct a similar event with these funds. Each event has proven to be more successful than the last one, as we have been able to better identify who we need to reach and how to reach them. Capitalizing on the successful aspects of previous events, and expanding on the successes, the residents in the Authority`s jurisdiction will be informed about the new opportunity to take their tires to one of three sites (1 landfill, and 2 transfer stations) and dispose of them free of charge. Current fees for tire disposal range from \$2.00 to \$75 per tire. In the last four events we have collected a total of 153,093 tires at a cost of \$195,753 which equals to \$1.28 per tire. The tire amnesty program has been developed to serve two purposes: 1) to offer the public the opportunity to dispose of tires legally and at no cost, preventing illegal dumping on the streets and agricultural land and; 2) to use the events as an educational opportunity promoting the proper care, maintenance, and disposal of tires. The Salinas Valley is a rural agricultural valley in Monterey County with five major cities: Gonzales, Greenfield, King City, Salinas, and Soledad . The Salinas Valley Solid Waste Authority is a Joint Powers Authority representing the five cities and unincorporated area in the east side of Monterey County. The purpose of the JPA is to provide a unified and coordinated solid waste management system and implement landfill diversion programs for the Cities and County. Estimated cost per tire: \$2.32*
Personnel costs: \$5,830.40
Advertising costs:\$15,000.00
*total cost-grant & match.

Nevada County

Grantee: Town of Truckee

Amount Awarded: \$10,098.00

Grantee Contact: Nichole Dorr

Grantee Contact Phone Number: 530-582-2909
CalRecycle Grant manager: Diane Nordstrom-Lamkin
Project Summary: Amnesty Events: \$10,098.00

Many Truckee residents have two sets of tires for seasonal driving conditions. Due to lack of recycling options, many of these tires end up stored in resident's garages, basements, under decks and sometimes illegally dumped. The Town proposes to use grant funds to host a year long waste tire recycling campaign through on-going education and the hosting of frequent waste tire drop off events. Because seasonal conditions vary year to year, which effects when residents switch out their tires, the Town is proposing to host tire collections on every other Saturday of the Eastern Regional Landfill throughout the duration of the grant. The goal of the every other week collection is to provide a convenient location to collect tires while minimizing cost and reducing risk of low participation in one day events due to unpredictable weather. Having a location to recycle tires during the education campaign will help to ensure its success. Newspaper ads, website information, flyers and posters will allow the Town to garget all sectors of Truckee including the Spanish speaking population. The Town will work in partnership with Nevada County Recycles in the sharing of public education materials to reduce design cost of printed material. In addition to the every other weekend event the Town will add waste tires to its list of accepted items during its spring Recycle Day which collects Universal waste and confidential papers for shredding in June of 2010. Recycle Day is a one day event that occurs at the Town Administration Center. The cost to collect tires during the every other Saturday events is \$2.92 each; the cost per tire for the one day collection event is \$2.75.

Project Summary: Cleanup Projects Amount: \$82,000.00

Amnesty Projects Amount: \$30,000.00

Cleanup Projects: (Charts included)

1). This project includes two parcels with a total of approximately 1,500 waste tires that have been dumped on the 9.32 acres of property involved owned by different property owners. These parcels are adjacent to residential properties. The waste tires will be collected by private contractor and recycled at a licensed end use facility.

2). This project includes three parcels with a total of approximately 700 waste tires that have been dumped on the 5.43 acres of property involved owned by different property owners. These parcels are adjacent to residential properties. The waste tires will be collected by private contractor and recycled at a licensed end use facility.

3). This project includes one parcel with less than 500 waste tires that have been dumped adjacent to private property and Interstate 10. This pile creates an attractive nuisance and is inviting to additional dumping on private property. The waste tires will be collected by private contractor and recycled at a licensed end use facility.

4). This project includes one parcel with a total of approximately 5,000 waste tires that have been dumped on the 9.62 acres of property. The waste tires will be collected by a private contractor and recycled at a licensed end use facility.

5) This project includes five parcels with a total of approximately 500 waste tires that have been dumped on the 377 acres of property involved owned by different property owners. These parcels are adjacent to residential properties. The waste tires will be collected by a private contractor and recycled at a licensed end use facility.

Sacramento County

Grantee: City of Sacramento

Amount Awarded: \$4,000.00

Grantee Contact: Daniel Driscoll

Grantee Contact Phone Number: 916-808-2276

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup Projects: \$4,000

The City of Sacramento picks up approximately 2,200 waste tires abandoned throughout the city limits yearly. The various city departments will pick up the tires illegally disposed of in the city right of way that create a public hazard. Generally they are picked up in small amounts, 2 or 3 at a time. Our Parks, Transportation, and Utilities departments will pick these tires up while conducting city operations and transports them back to the various Corporations Yards, on is located at 5730 24th Street in the south area of Sacramento and another on is located at 918 Del Paso Blvd. in the north area. Currently we are contracted with Duran`s Tire Recycling TPID Number 1539211-01, to pick up and properly dispose of these tires. We are seeking a way to get reimbursed for the disposal costs of the abandoned tires collected in the city right of way. We estimate that to be approximately \$4,000 annually.

San Bernardino County

Grantee: City of Hesperia

Amount Awarded: \$19,698.00

Grantee Contact: Julie Ryan

Grantee Contact Phone Number: 760-947-1589

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup Project Amount: \$27,536.00

Amnesty Events Amount: \$10,975.00

Cleanup: The City of Hesperia encompasses roughly seventy-five (74.77) square miles of developed and open desert land. The City has an unlimited trash collection program, large item pick-up program and two community clean up days per year offered to our residents. However, tires are not accepted through these programs and residents choose to dispose of tires in the open desert or in City right-of-way. Code Enforcement Officers have the authority to issue a code violation notice to any property that contains waste tires. If a tire amnesty event is scheduled, the property owner of record will also be given a brochure noting the upcoming Tire Amnesty Event. In prior years, the City's code enforcement department hired work release inmates from the county jail system every weekend to provide community clean-up services in areas throughout the city that are littered with illegally dumped tires. However the code enforcement department will utilize one city code officer 4-days per week to focus primarily on the littered areas. The City attempts to remove illegally dumped tires quickly to alleviate the threat to public health and safety and also to discourage further illegal dumping. During normal business hours, the city's public works personnel will also pick-up tires that are located along city right of way. In addition to the cost of recycling waste tires, the City is requesting reimbursement for one code enforcement officer's salaries and benefits when actual time is spent on grant-related activities. Parcel numbers and exact locations are not included in this grant as illegally dumped tires are scattered throughout the entire Hesperia square miles and code enforcement and public works act upon citizen complaints of abandoned tires in the specified area of complaint. However, pictures are included for your convenience. The City is requesting Waste Tire Cleanup grant funds to offset the disposal and hauling cost of approximately 1,337 waste tires anticipated to be illegally dumped during the grant term.

Amnesty: The City of Hesperia currently has two community clean-up and waste tire amnesty events per year with city staff trained in proper disposal procedures. The City will add two additional tire amnesty events so that residents have an opportunity to dispose of waste tires at four amnesty events during the grant term. Trained city staff will be on hand for assistance with the events. The City will schedule one event per quarter, with the anticipation of approximately 2,000-4,000 waste tires collected during the events. The estimated costs per tire are \$1.75 for pickup, light trucks and passenger car tires; \$5.00 for medium truck tires and \$25.00 for tractor size tires. Passenger and light car tires and medium truck tires are expected to be the majority based on the tires collected from previous illegal dump sites and current tire amnesty events. In addition to contractors fees, the city of Hesperia is requesting a 25% reimbursement of salaries and benefits for personnel who are involved in the administration and oversight of the amnesty events and distribution of educational materials. The City has surveyed citizens to determine the best means of public outreach and have found that newspaper advertising provides the best community outreach for the city as will s brochure distribution through the code enforcement department personnel. If funding for the program is not available, illegal dumping will increase and the health and safety of the city's residence will be at risk.

Grantee: City of Victorville

Amount Awarded: \$41,959.00

Grantee Contact: Mr. Jorge Duran

Grantee Contact Phone Number: 760-243-6309

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup Projects Amt: \$43,370
Amnesty Events Amt: \$ 6,365

Waste Tire Cleanup Project Cleanup:

1. Need and Location- The City of Vacaville is located in the center the high desert area within the San Bernardino County. The city is access by nearly 3000,000 people daily in route to work, home, shopping or Las Vegas. The City of Victorville anticipates collecting, transporting, and transferring a vast amount of illegally disposed waste tires throughout our city limits. The City of Victorville encompasses 74.09 sq miles of land which 58% is undeveloped. With a population of approx. 105,000, excluding neighboring jurisdictions, people are reluctant to properly dispose of their waste tires and end up disposing of them in our underdeveloped areas. Many of these areas are located adjacent to densely populated residential areas. In recent waste tire cleanup activities generated by waste tire enforcement inspections and monitoring of vacant desert areas, the city conducted numerous joint tasks supported by our public works division to collect waste tires in areas where accessibility was limited and rough. Through the use of our two waste tire collection trailers purchased through prior waste cleanup grants (2003/2004), we were able to safely access these areas and effectively remove hundreds of waste tires. In addition, through the use of our contracted waste tire hauler (RJB Trucking, TPID 1001408); we anticipate collecting approximately 8,000-10,000 tires during the 2008/2009 grant cycle. Below are several locations where our code enforcement officers have already identified waste tire piles. (see application)

2. Methodology- Illegal dumping is a situation where people observe others have dumped-so they will follow. To curtail this type of behavior is to get the illegal dumping cleaned up as soon as they happen. Utilizing community service workers, probationers or city staff for waste tire removal for stockpiling and later shipment in the most economical means. Staffing will consist of one-two code enforcement officer(s) to oversee the program, supervise community service workers and probationers, and monitor the temporary stockpiling and shipment of tires to recyclers via our contracted waste tire hauler.

Funding for code enforcement staff will be funded from within the city's code enforcement budget with most cost reimbursed through grant funding. Most labor will be directly from utilizing people on formal probation or required court-ordered community service. Any type of heavy equipment and/or heavy equipment operator to be utilized would be from the city's Public Works Dept. and funded from the Environment Maintenance Fund or the waste tire clean up grant if authorized by the grant manager. To fulfill these tasks, the city will need to purchase safety related items and stick tools to drag and load collected waste tires. We also request to purchase solar lighting for security purposes for the shed which houses our tire collection trailers. The city request the following supplies: (see application)

3. End Use- The collected tires will be taken to our code enforcement yard located on El Evado Rd where they will be properly stored and ready for pick up by our registered waste tire hauler RJB Trucking. The tires will be transported via an enclosed trailer to the Mitsubishi plant in Lucerne Valley to proper handling.

WasteTire Amnesty Event Description:

Collection of waste tire from the general public (not waste tire related businesses) managed by the city's Fire Dept. The program invites the general public within city limits to dispose of their waste tires at the designated local facility. The facility accepts rimless waste tires every Wed. and Sunday, at no cost to the citizens and disposes of the waste tires in accordance with the CIWMB requirements and regulations. If awarded the grant, only those tires collect during the amnesty events and during the awarded grant period will be applied to the clean up grant.

\$3 per tire. The facility accepts approx. 30 tires per day. 52 week X 2 days = \$9,360.

Total Awarded for County:\$61,657.00

San Diego County

Grantee: Pala Band of Mission Indians

Amount Awarded: \$15,992.00

Grantee Contact: Mr. Rodney W. Watkins

Grantee Contact Phone Number: 760-891-3511

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Events Amount: \$26,030.00

Amnesty Events will take place the first Friday and Saturday of each month during the program year. Tires will be diverted by individuals both on and off the reservation, to the Pala Band of Mission Indians Reservation transfer station located at 12802 Highway 76, Pala, CA 92059 (APN 110 250 06 00). The Pala Band of Mission Indians Tribal Services Department also carries out an on-going program of junk yard cleanups and trash removal. Much of this work involves removal of vehicles, equipment, buildings, and junk, including significant numbers of tires. As this work is carried out throughout the work week, Tribal Services will deliver tires to the transfer station for disposal to a certified tire hauler/recycler.

While no formal agreement currently is in place to deal with tires specifically, the Pala Band of Mission Indians is strategically located within 15 miles of six other Indian tribes, (Pechanga, La Jolla, Pauma, Rincon, San Pasqual, and Los Coyotes) with whom we have close working relationships. Each of these tribes have expressed an interest in working with us to collect and dispose of discarded tires that have become a blight on all of the reservations. Advertising and cooperative efforts will remove will go a long way to rid the reservations and nearby communities of this problem.

Project Summary: Amnesty Events: \$30,000

The City of San Jose proposes to conduct the Waste Tire Amnesty Event as part of the City's Neighborhood Cleanup program. This program allows residences throughout the City of San Jose to dispose of excess trash when the Cleanup program comes to their neighborhood. The City plans on conducting 21 neighborhood cleanup events for FY 2009/2010 (schedule enclosed). The City plans on incorporating the Waste Tire Amnesty event into our Neighborhood Cleanup Program with additional advertising for the Waste Tire Amnesty Event (tires will be accepted from residents throughout San Jose at all events) Enclosed is a quote from a waste tire hauler for transporting and disposal of waste tires collected at the amnesty event: Hauler to provide a Bobtail Truck/Box van 21 times per year. Estimated to collect 320 tires per event or a total of 6,720 during the grant cycle.

Total Awarded for County:\$30,000.00

Shasta County

Grantee: Shasta County

Amount Awarded: \$76,100.00

Grantee Contact: Ms. Marci McEwen

Grantee Contact Phone Number: 530-225-5789

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Events Amount: \$90,000.00

Shasta County is a `rural entity`, with a 2006 U.S. Census Bureau population estimate of 179,561. Shasta County, as lead agency in a regional application with the Cities of Anderson, and Shasta Lake, proposes to hold at least two waste tire amnesty events. We anticipate holding one in the fall of 2009 and one in the Spring of 2010. If adequate funding remains, we propose to hold a third event that will be scheduled for the Burney/Fall River area in the eastern portion of the county in the spring of 2010. We will set a maximum number of tires on rims to accept from participants, however we have not yet turned away participants that exceeded that limit. We have received an average of 250 tons of tires at the two largest tire amnesty events held in Anderson with a high of 291 tons collected at the largest event. We are using an estimate of 20 tons per Anderson event in this request.

Shasta County Department of Resource Management (DRM) will issue a Request for Proposals and enter into an agreement with a registered waste tire hauler, to load and transport waste tires to an approved recycling and/or disposal facility(s). Using contract costs from the current hauler, Waste Recovery West, we estimate that the two proposed events will cost \$78,085.80. This estimate includes receiving 150 tons (60%) of waste tires and 100 tons (40%) of scrap tires at each event.

Shasta County DRM tasks include grant management and project oversight, tire education and event advertisement, pre-amnesty day event preparation, and amnesty day event staffing(see work plan). These tasks will be completed primarily by our Community Education staff and other department staff as needed. DRM's matching contributions of \$9,076.08 include providing work release inmates to unload tires from participant vehicles at events, providing staff to conduct surveys and direct traffic at events, print a new version of a tire brochure, pay a portion of newspaper advertising costs, and staff community event booths to educate the public about waste tires and distribute the tire brochure.

DRM has planned a comprehensive advertising and educational plan, which includes budgeting \$2,900 for advertising for these events. DRM regularly advertises the events in local papers, releases PSA's, and advertises tire amnesty events in the quarterly `trash talk` newsletter received by residents in the unincorporated area, City of Anderson, and City of Shasta Lake. In addition, DRM coordinates with the City of Redding to ensure the events are advertised in the City's newsletter. The events are also published on the County's website. DRM staff will also attend community events to educate the public about waste tires, and update and print a new version of a tire brochure initially printed with funding from the CIWMB TR44 grant cycle.

Total Awarded for County:\$76,100.00

Siskiyou County

Grantee: Siskiyou County

Amount Awarded: \$33,049.00

Grantee Contact: Mr Garrett Johnson

Grantee Contact Phone Number: 530-842-8272

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Event: 33,049.27

Siskiyou County is proposing to conduct a Waste Tire Public Education and Amnesty program by offering 12 tire events throughout the 09/10 FY. These events will be held at various sites throughout our County which in turn will provide all residents, even in rural areas, the ability to dispose of waste tires in an easy and convenient manner. During these events we will educate our residents on the health hazards of improper tire storage and disposal. We will also educate residents on the laws regarding the transportation of waste tires. The events will only accept passenger car, light truck and SUV tires. We are requesting a total of \$33,049.27. The total cost of operating all events will be \$9,145.44. Transportation and disposal of waste tires will cost \$17,448.00. Project oversight, education and advertising will be \$6,455.83 equaling 20% of the total amnesty events grant amount requested. The remaining \$226.48 will be a match from the Siskiyou County General Services Department.

Total Awarded for County:\$33,049.00

Solano County

Grantee: Solano County

Amount Awarded: \$55,461.00

Grantee Contact: Ms. Narcisa Untal

Grantee Contact Phone Number: 707-784-3172

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Events Amt: \$90,000

Solano County and its cities intend to use this grant for the disposal costs associated with the collection of waste tires from both incorporated and unincorporated Solano County residents, growers, farmers and ranchers who participate in Waste Tire Amnesty Events scheduled and coordinated by Solano County. Waste Tire Amnesty Events will not limit the collection of waste tires by size or type but will abide by any government regulations in the transportation of all waste tires. There will be no charge to residents but proof of residency will be required for jurisdictional tracking and reporting to the State if deemed necessary. The Cities of Solano County have agreed to assist in paid advertising and coordination of public outreach within their respective jurisdiction.

Solano County and its cities have secured a partnership with NWS Hay Road Landfill, Potaro Hills Landfill and Vallejo Garbage Service serve as host-sites for Waste Tire Amnesty Events. These partnerships were established because each are physically located in areas that have adequate space so not to impede traffic flow, are sites familiar to the participating communities and offer hours convenient to the public. Each partner is anticipated to host at least one Waste Tire Amnesty Event, if grant monies are available, during regular business hours on a scheduled date announced in advance to the public and will be responsible for providing the drop-off site and containers, managing traffic flow, collecting participant's waste tires and coordinating the waste tire removal for recycling by a legitimate waste tire hauler. Each partner will rotate an event at their site as scheduled by Solano County during the grant term and agrees to use Solano County's CIWMB assigned TPID number in order to manage the separate tracking of waste tires collected specifically during Waste Tire Amnesty Events. Additionally, each partner has agreed to submit an invoice in the amount equal to the associated costs for collection and removal of the waste tires collected to Solano County's Department of Resources Management for reimbursement under the CIWMB Waste Tire Amnesty Event Program grant.

The average price to dispose of a passenger tire at a Solano County landfill is \$7 to \$9 per tire while one tractor tire ranges from \$300 to \$400. However, the partners have agreed to negotiate with World Environmental & Energy Tire Disposal, or a similar contractor willing to charge a per bin price for all size and type of waste tires brought in during a Waste Tire Amnesty Event. Each bin is 55-yards and can contain an average of 250 passenger and/or truck tires at a cost of \$965 per bin. The same 55-yard bin can contain an 50 tractor tires at a cost of \$975 per bin. A potential fuel charge expense is dependent on the economy's fuel demand at the time of these events. The total collection goal is 17,250 tires based on a total of 93 bins. This equals an estimated cost per passenger/truck tire to be #3.83 while a single tractor tire is reduced significantly to \$19.50 versus the standard per inch per tire charge.

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Clean up Projects - \$23,786

Amnesty Events - \$15,300

Grantee: Stanislaus County

Amount Awarded: \$58,312.00

Grantee Contact: Mr. Bryan Kumimoto

Grantee Contact Phone Number: 209-525-6752

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Cleanup: \$8,568
Amnesty: \$49,744

The Stanislaus County Department of Environmental Resources, Landfill Division will utilize current staffing to collect illegally dumped waste tires in the streets, alleys and waterways of the County. The County has no sites containing more than 500 waste tires. Waste tires are scattered throughout the County roadways, alleys and vacant lots. The County cleaned, removed and recycled approximately 5,000 waste tires in 2008. Tires that are picked-up by the illegal dumping crews will be transported to the County owned Fink Road landfill which charges a recycling fee of \$1 for each passenger tire and \$5 for each truck tire. Approximately 90% of the 5,000 tires collected each year are passenger tires, 4,500 tires with the remaining 10% being truck tires. Golden By-Products will provide the County with 45-foot trailers as needed to transport the tires. The trailers will be parked at the County operated landfill at 4000 Fink Road, Crows Landing. Staff will utilize an existing County vehicle and equipment in the cleanup process. Based on past history we anticipate collecting approximately 5,000 tires during this grant cycle.

The cities of Hughson, Newman, Oakdale, Patterson, Riverbank, Turlock and Waterford will each hold a tire amnesty clean-up event by one of two methods: 1. Tires will be transported by residents to a specified location for collection, or 2. Residents will be issued a voucher and haul tires to permitted transfer stations. Tires from each collection will be hauled and recycled at Golden By-Products Inc. located in Ballico, California. The cost depends on the method selected by each city. The cost for a 45-foot trailer that will hold (depending on tire sizes) between 850 to 1000 tires is \$1,200. Approximately 1700-2000 tires will be collected for each event at a cost of \$,400 per event. The County plans to hold 4 amnesty collection events at different locations throughout the unincorporated county area. The County plans to use Golden By-Products for collection and transport to their facility in Ballico, CA. An estimate of 46 hours will be needed for grant administration and oversight at a cost of \$2,909.50. Labor is estimated at 30 hours per event at a cost of \$570. The total labor costs for the 4 events is \$2,280.

Total Awarded for County:\$82,685.00

Tehama County

Grantee: Tehama County Sanitary Landfill Agency
Amount Awarded: \$23,775.00
Grantee Contact: Mrs.Kristina Miller
Grantee Contact Phone Number: 530-528-1103
CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Events Amount: \$23,775.00

The Tehama County Sanitary Landfill Agency plans a total of four collection events upon receipt of a Notice to Proceed. The Tehama County Sanitary Landfill Agency (Agency) proposes three passenger and light truck tires amnesty events to be scheduled for late October 2009, January 2010, and early April of 2010. The amnesty events will be one day events held at four locations within Tehama County. While locations are yet to be finalized, past events have been held at the Tehama County Landfill, at the Los Molinos transfer station in Los Molinos, Bell Carter Olive Packaging Company parking lot in Corning, and at one of several other sites including Cottonwood, Rancho Tehama, or the mountain communities. The Agency contracts with Waste Tire Products of Orland for staging, transport, and recycling of tires collected at these events. Waste Tire Products is a CIWMB certified tire hauler and recycler. In most cases 100% of the collected tires are recycled into new products or crumb rubber. Waste Tire Products charges \$1.25 per passenger tire. The Agency is billed after the tires are collected and returned to their facility for processing. An estimate of costs for Waste Tire Products services is attached (please see attachment 1). During the event agency staff maintains a participant sign in sheet, which includes the number of tires they report to be collecting for backup purposes. Agency staff develop and distribute educational materials, manage traffic, and collect data prior to and during the event.

Tehama County is a rural county with over 1,000,000 harvested acres. Like many rural counties, Tehama County is also below the state average in per capita income. For this reason, the Agency feels strongly about the need to provide at least one tire event dedicated to the agricultural community although this negatively affects our overall cost per tire.

The Agency proposes to hold a coupon redemption program for agricultural and equipment tires. Coupons are good for the disposal of two large-sized tires and will be made available through the Agricultural Commissioner's office, the Tehama County/Red Bluff Landfill, the Tehama County Farm Bureau office, Tehama County Farm Services Agency office, and at Corning City Hall. A limit of three coupons per address, for a total disposal of six tires per address is proposed for each event. Tractor, grader, loader, backhoe, and farm tires will be collected. Earthmover tires will not be accepted. The agricultural tire event is proposed for a two week period in late winter in order to allow ranchers time to finish harvest, roundups, and other seasonal activities. The event is most likely to occur during the first two weeks of February 2010. Coupons and tires are surrendered at the Landfill and Waste Tire Products collects the tires for processing at the end of the period. Waste Tire Products charges by weight for large-sized tires. Their invoice is supported by surrendered coupons and scale tickets from the landfill. During the Agricultural Tire Collection held in 2008 the cost averaged \$23.00 per tire. An estimate of cost from Waste Tire Products is attached.

Total Awarded for County:\$23,775.00

Yuba County

Grantee: Regional Waste Management Authority

Amount Awarded: \$32,410.00

Grantee Contact: Mr. Keith Martin

Grantee Contact Phone Number: 530-634-6890

CalRecycle Grant manager: Diane Nordstrom-Lamkin

Project Summary: Amnesty Events Amt: \$32,410

Amnesty Event(s) Description:

The Regional Waste Management Authority (RWMA) is proposing to collect 5,000 waste tires through a free tire recycling coupon program at two local transfer stations operated by the local franchised waste hauler, Yuba-Sutter Disposal, Inc., plus another 2,000 waste tires in five (5) 40-yard waste tire bins provide to community clean-up events. The RWMA will update and distribute the public education and information campaign utilized for previous waste tire amnesty projects to inform the public about tire maintenance and safety issues to prolong the useful life of tires; health and safety issues related to improper storage and disposal of waste tires; and the availability of free tire recycling coupons for the proper disposal of waste tires. RWMA and Yuba-Sutter Disposal, Inc. staff will coordinate with the sponsors of community clean-up events to provide waste tire collection bins and appropriate messages regarding tire collection for event promotional materials.

Attached are letter-quotes from the two registered waste tire haulers that will be involved in this project--Yuba-Sutter Disposal, Inc. and Tri-C Manufacturing Co., Inc. The cost of the five (5) 40-yard waste tire bins to be provided for community clean-up events is based on the cost of these bins in the current rate structure, plus an estimated 4% rate increase anticipated for the next rate year. The resulting cost per tire for the free tire recycling coupon program and waste tire bins at community clean-up events is \$4.63 per tire.
